Examples of broiler production with reduced or no antibiotic use in a range of countries

Hilton Sukhumvit Bangkok

Grand Ballroom, 3rd floor
11 Soi Sukhumvit 24, Sukhumvit Road, Khlong Ton, Khlong Toei, Bangkok 10100 Thailand

7 May 2019 (Tuesday)

0800 Registration opens, coffee available

0900 **Welcome**
Tom Grimes, Conference Chairman and Program Director

Session 1 - Introduction

0920 **Why is antibiotic use in poultry being challenged**
Pat Blackall, Principal Research Fellow, Queensland Alliance for Agricultural and Food Innovation, University of Queensland, Australia

Dr Blackall has a Science degree and PhD from the Uni. of Queensland Australia. His research interests are mainly in bacterial diseases of poultry and pigs, including vaccines. Pat has held senior positions in professional societies and is the recipient of many awards. He has published 220 refereed papers in scientific journals, is the author of chapters in 14 text books and is a regular presenter at conferences. Pat has worked closely with poultry industries in Australia and other countries since 1973. In recent years Pat has contributed to One Health and AMR studies on poultry.

Pat Blackall

0950 **Global and Asian 'One Health' approach to antimicrobial resistance control**
Direk Limmathurotsakul, Head, Mahidol-Oxford Tropical Medicine Research Unit, Faculty of Tropical Medicine, Mahidol University, Thailand
Dr Limmathurotsakul is the Head of Microbiology at Mahidol-Oxford Tropical Medicine Research Unit (MORU), Mahidol University (<http://www.tropmedres.ac>). Since January 2012, Direk also holds a Wellcome Trust Intermediate Fellowship in Public Health and Tropical Medicine. Besides facilitating other researchers' work, Direk runs his own fellowship-funded research programme. From 2018, Direk is also a board member of Surveillance and Epidemiology of Drug-resistant Infections Consortium (SEDRIC). Antimicrobial resistance is one of Direk's main research areas.

Direk Limmathurotsakul

1020 Session discussion

1035 Coffee break

Session 2 – Programs to reduce antibiotic use and antimicrobial resistance

1105 **'Responsible Use of Antibiotics', 'Raised without Antibiotics' or 'No Antibiotics Ever' use in the USA**
John Smith, Poultry Veterinary Consultant, USA

Dr Smith completed a veterinary degree and a Master of Avian Medicine at the Uni. of Georgia USA. John has held senior positions in industry and professional organizations, has published numerous scientific papers and book chapters and has received a number of industry and professional awards. John serviced the poultry industry in universities in Alabama, Colorado and Georgia prior to working for Fieldale Farms Georgia from 1991-2014 in senior poultry health management positions. Since 2015 John's company Alectryon LLC. has provided a veterinary consultancy service to the poultry industry.

John Smith

1135 **Audit process for certification of 'Raised without Antibiotics' broiler production**
Mananya Panyadhira, Auditor and Coordinator Customer Value Verified Programs, NSF International, Thailand
Dr Panyadhira starting work at Mahidol University as a scientist and back to continue her PhD study. After graduated in Agricultural Science from Tsukuba University, Japan, Mananya was a lecturer at Agricultural Innovation at Rangsit University and consultant of soilless cultivation technique. Mananya is now an auditor and coordinator of CVV (Customer Value Verified) and Agriculture programs including Raised Without Antibiotics standard for NSF Asia-Pacific.

Mananya Panyadhira

1205 Session discussion

1220 Lunch

Session 3 – Role of the breeder, hatchery and husbandry in reducing antibiotic use and antimicrobial resistance

1320 **Breeder vaccination programs and procedures**
Orlando Fernandez, Director of Technical Service and QA, Cobb Asia, Philippines

Dr Fernandez is a graduate of Doctor of Veterinary Medicine and has been with Cobb for almost 18 years where he started as a Regional Technical Manager for Asia and was then promoted to Asia-Pacific Technical Service and Quality Assurance Director from 2011 to date. Prior to his current position his technical and managerial skills were developed by working in a Poultry Integrator Vitarich Corporation for more than 19 years in which he worked for multiple job titles from being a Farm Veterinarian until he served as Vice-President for Poultry Operations.

Orlando Fernandez

1350 **Hatchery and husbandry procedures**

Donna Hill, Hatchery Management Consultant, USA

Dr Hill completed a veterinary degree at the Louisiana State University USA and a Master in Avian Medicine at the Uni. of Georgia. Since 1988 Donna has had career roles as the Director of Veterinary Services at Peterson Farms, the Director of Health Services Perdue Poultry, consultant to Intervet specialising in incubation and processing, as HatchTech USA President and is now a Hatchery Management Consultant for HatchTech Incubation Technology and a consultant to the Ceva vaccine company.

Donna Hill

1420 Session discussion

1435 Coffee break

Session 4 – Initiatives to reduce antibiotic use and antimicrobial resistance

1505 **Antibiotic use reduction in the EU**

Dan Pearson, Veterinary Health Director - Europe, Aviagen UK Ltd, United Kingdom

Dan Pearson is a veterinary graduate from the Uni. of Queensland Australia. In 1984 he commenced work as a veterinarian for Marshall's Chunky Chicken in Scotland and continued working for that company as it changed owners until 2011. He is a past president of the British Veterinary Poultry Association, a member of the European Poultry Veterinary Study Group, a member of the Red Tractor Farm Assured technical committee for chickens and has served on a number of UK poultry steering committees. Dan joined Aviagen in 2012 as the Veterinary Health Director for Aviagen (Europe).

Dan Pearson

1535 **Control of immunosuppression by Infectious Bursal Disease, Chicken Anaemia and Marek's Disease virus infections**

Rik Koopman, Global Technical Director, MSD Animal Health, Netherlands

Dr Koopman graduated as a veterinarian at the State University of Utrecht in the Netherlands in 1986. From 1986-1997 he worked as the poultry veterinarian for the chicken meat and egg layer integrations of CVH Feed Mill, a large co-operative in the south of the Netherlands. In 2001 Rik was registered as a Specialist in Poultry Health by the Royal Dutch Veterinary Association. Rik joined Intervet International in 1997 as the Technical Manager for Poultry Products and subsequently was promoted to Global Technical Director, Poultry Business Unit in Intervet/Schering Plough Animal Health and MSD Animal Health.

Rik Koopman

1605 **Nutritional initiatives for 'antibiotic-free' broiler production**

Kiran Doranalli, Technical Director, Gut Health Solutions, Evonik Nutrition & Care GmbH, Germany

Dr Doranalli is a veterinarian with a Masters Degree in Animal Nutrition and a PhD on dietary manipulation to optimize protein utilization efficiency. He has been working as Global Technical Director for Gut health Solutions in Evonik Animal Nutrition based in Germany since April 2017. Earlier, Kiran was a Senior Technical marketing manager for probiotics from June 2015 until March 2017 supporting the technical activities of gut health solutions. Before moving to Germany, he worked as a Regional Technical Manager for Asia South region based in Singapore from November 2011 until June 2015, supporting customers in amino acid nutrition and gut health area.

Kiran Doranalli

1630 Session discussion

1645 Panel discussion with all day one speakers

1715 Conference close

1715 **Meet the Speakers Cocktail Party** (Grand Ballroom foyer, 3rd floor)
Light refreshments and finger food as you meet and mix with speakers and colleagues – until 1845 hrs.

Sakdid Anulomsombat

8 May 2019 (Wednesday)

Session 5 – Role of broiler vaccination and husbandry programs in reducing antibiotic use and antimicrobial resistance

0900 **Experiences with 'Raised without Antibiotics' broiler production**

Sakdid Anulomsombat, Food Safety & QM Manager, Betagro, Thailand

Dr Anulomsombat graduated as a veterinarian at Chulanongkorn University Thailand in 1994 and subsequently completed Masters Degrees in Science, Veterinary Public Health and Business Administration. In 2017 Sakdid became a Diplomat of the Thai Board of Veterinary Public Health. Sakdid has worked for Betagro Holding Co. Ltd since 2003, initially as Manager of the Corporate Quality System Department, then in a Professional-Strategic Management role and currently his position is Professional, Food Safety and Quality Management.

0930 **Broiler vaccination, hygiene, biosecurity, medication and husbandry programs and procedures**

Christophe Cazaban, Global Veterinary Services Manager – Knowledge Manager, Ceva Santé Animale, France
Dr Cazaban graduated as a veterinarian from the French Veterinary University of Lyon in 1993. He completed his education with specific training on virology, immunology and avian pathology in Lyon and Maisons-Alfort (Paris) Universities. Christophe has worked all his career in the biological industry, initially for Rhone Merieux, and then in Ceva as international technical manager for poultry vaccines. In 2006 in Ceva he took on operational responsibilities as poultry range manager for an area covering Turkey, the Middle East and the whole of Africa. Since 2010 to the present, he holds the position of Ceva Global Veterinary Services Manager and Knowledge Manager for Poultry Biologicals.

Christophe Cazaban

1000 Session discussion

1015 Coffee break

Session 6 – Importance of disease control in reducing antibiotic use and antimicrobial resistance

1045 **Newcastle Disease and Avian Influenza**

Ming Yong, Head of Marketing (Avian), Boehringer Ingelheim Animal Health, Singapore
Dr Ming is a native from Malaysia and he is the Head of Marketing (Avian) at Boehringer Ingelheim Animal Health. He obtained his veterinary degree from University Putra Malaysia and Master of Business Administration from University of Adelaide, Australia. His main fields of interest are vaccine and prevention. He is also in charge of the company trial facility in SE Asia. He has published some of his field & scientific findings.

Ming Yong

1110 **Infectious Bronchitis**

Marcelo Paniago, Director Asia Veterinary Services, Ceva Animal Health Asia Sdn Bhd, Malaysia
Dr Paniago is a Veterinarian graduated in Brazil and subsequently with Masters Degrees in Preventative Veterinary Medicine and Business Administration. He has worked in university as a lecturer in poultry diseases, for Aviagen in Brazil, for Ceva Animal Health since 2004 initially in Asia then in France and since January 2017 for the Veterinary Services group of Ceva Animal Health Asia. He has worked in the poultry sector for over 32 years.

Marcelo Paniago

1135 **Mycoplasma**

Chris Morrow, Global Technical and Marketing Manager, Bioproperties Pty Ltd, Australia
Chris Morrow obtained a veterinary degree and PhD from the Uni. of Melbourne Australia. Chris has worked in veterinary private practice, as a district government veterinarian, as a poultry pathologist in a government laboratory, as a company veterinarian for Aviagen in Scotland servicing customers in Asia and Europe and for the Bioproperties vaccine company since 2006. Chris was instrumental in the development of the Bioproperties MS-H vaccine. He has also participated in the development of a number of molecular tests for avian mycoplasmas.

Chris Morrow

1200 Session discussion

1215 Lunch

Session 7 – Importance of control of gut infections in reducing antibiotic use and antimicrobial resistance

1315 **Coccidiosis and Necrotic Enteritis control**

John Smith, Poultry Veterinary Consultant, USA

Michele Muccio

1340 **Anti-nutritional factors, including mycotoxins**

Michele Muccio, Product Manager, Biomin Holding GmbH, Austria
Michele Muccio currently works as product manager in the Competence Center for Mycotoxins at the Erber Group headquarters in Getzersdorf, Austria. He earned his Master's Degree in biotechnology, with specialization in enzyme engineering at the University of Groningen, the Netherlands, with a thesis on the identification of novel epoxide hydrolase-like enzymes from soil bacteria. Previously he graduated in biotechnology at the University of Rome 'Tor Vergata'. During his studies, he participated in several international research projects in Italy, the Netherlands and Austria. Michele Muccio joined Biomin as a Mycofix product manager in 2015.

1405 Session discussion

1420 Coffee break

POULTRY HEALTH CONFERENCE

Bangkok, Thailand

7-8 May 2019

Antibiotic use and controls in poultry – current trends and the future

Antibiotic use in livestock is undergoing increased scrutiny worldwide. Increasing resistance to antimicrobials critical for human treatment has been implicated in the use of antibiotics in livestock, including poultry. Partly due to customer concerns, poultry production with reduced or no antibiotic use has occurred in recent years.

The aim of this conference is to provide the Asian poultry industry and their technical advisers with technical information on why antibiotic use in poultry is being challenged, examples of poultry production with reduced or no antibiotic use in various countries and important poultry health control measures that are essential for poultry production with reduced or no antibiotic use.

- Tom Grimes, Conference Chairman and Program Director

Dr Grimes is a veterinary graduate of the University of Queensland Australia and completed a PhD in Microbiology at the University of Georgia USA with studies on Inclusion Body Hepatitis. Tom has worked for the poultry industry all his career in government, university, poultry companies and as a private consultant in Australia and in 21 overseas countries in the last 18 years, with experience in the broiler, egg layer, duck and turkey industries. Tom has been the veterinary consultant for MSD Animal Health in Australia for the last 18 years. Tom's expertise is in poultry health, biosecurity, performance, welfare and food safety.

FULL PROGRAM INCLUDES:

- 16 presentations, 7 sessions & 2 panel discussions
- 15 experts delivering a world-class program
- Greater access to speakers including our 'meet-the-speaker' cocktail party immediately following day one presentations

- Session discussions and extended panel discussions with each day's speakers to permit more questions
- Actual presentations will be available in PDF for downloading post-conference
- A chance to mix with like-minded industry people

Comfort and style in the heart of Bangkok

The **Hilton Sukhumvit Bangkok** provides a prime location in the center of the city's business, shopping and entertainment district. Compelling features of this contemporary 280-room hotel include a stunning rooftop pool, fully equipped fitness center, fashionable restaurants and flexible meeting spaces. Just five minutes' walk from Phrom Phong station and close to attractions such as Terminal 21, MBK Centre, CentralWorld and Siam Paragon.

See the Registration Form for details of the special rates for Poultry Health Conference delegates.

Take advantage of the EARLY BIRD REGISTRATION

- I am registering as an individual and paying before **9 April 2019** for **USD 100 off** – you pay only **USD 700**

Take advantage of the TEAM REGISTRATION

- I am registering as a part of a team of 3 to 5 and paying **before 16 April 2019** for **USD 125 off** – you pay only **USD 675** per person
- I am registering as part of a team of 6 or more and paying **before 16 April 2019** for **USD 150 off** – you pay only **USD 650** per person

Regular Conference Package

- I am registering for the full conference including coffee breaks, lunches, networking session, conference background papers and proceedings at **USD 800** per person Registrations close **30 April 2019**
- I will not attend but send me the proceedings on a memory stick **USD 200**
